

A tattoo

by Oscar Schwartz

Computer generated drug deal
Terse, cool, calm, unimpassioned
Is hypnosis real?
\$1 per every new tab opened

A very difficult thing to achieve
Can make millions seem servile.
While the present is make believe
Throughout the day i am in exile

And he said joy. calm is good
Hipper part of the galaxy, low rent
So amazing it fixes your childhood

Marble in* *gets up and leaves*
Tiny black holes for ammunition
And discovered they were graves
